

## Privacy Notice – GP Connect

### Plain English explanation

GP Connect is a platform which allows different systems to communicate so that clinicians in different care setting can view a patient's GP record.

This practice keeps data on you relating to who you are, where you live, what you do, your family, possibly your friends, your employers, your habits, your problems and diagnoses, the reasons you seek help, your appointments, where you are seen and when you are seen, who by, referrals to specialists and other healthcare providers, tests carried out here and in other places, investigations and scans, treatments and outcomes of treatments, your treatment history, the observations and opinions of other healthcare workers, within and outside the NHS as well as comments and aide memoires reasonably made by healthcare professionals in this practice who are appropriately involved in your health care.

GP Connect also provides the ability of your medical records being transferred to your new registered practice electronically without the delay. This enables continuity of your care by different providers.
